

- = IMPORTANT = -

It is strongly recommended that all flyers have a spotter for the following reasons:

- + Help insure aircraft don't wander outside the flight zone (see sign)**
- + Watch for approaching full-scale airplanes**
- + Watch for other RC aircraft and people**
- + Assist in case of injury (it happens)**

For FPV
with goggles
be sure to use
a spotter!

The maximum altitude at this flying site is 400 feet.
